- CHESS
- Watching Anime
- Solving DSA problems (Solved something around 120 question in leetcode)

🧠 SKILLS

- Java
- HTML/CSS/JavaScript
- C/C++
- DSA

📁 PROJECTS

Instagram clone using css and Html
I have created an Instagram clone using HTML and CSS, which closely mimics the design and
functionality of the original app. The project involved building responsive layouts, designing user interfaces, and implementing features such as photo uploads, comments, and likes. Through this
project, I gained a deeper understanding of front-end web development, including the use of CSS frameworks, responsive design principles

Amazon webpage using HTML and CSS
I have created an Amazon clone using HTML and CSS, which I closely mimics the design and
functionality of the original Website. The project involved building responsive layouts, designing user interfaces, and implementing features such as photo uploads, comments, and likes. Through this
project, I gained a deeper understanding of front-end web development, including the use of CSS frameworks, responsive design principles
